

## Foundation Orders For the City of Bangor ARLINGTON HILLS CEMETERY

The City tries to work with families and individuals to provide new foundations and replacement foundations. To keep costs low as possible for all, we take foundations in groups twice a year. This allows us to get better prices on cement and labor. Foundations are priced at \$0.35 per square inch. A three-inch lip around the headstone is required.

The City of Bangor takes orders for new headstone foundations each April. Please make your foundation order by the Third Friday in April of each year. You may do so by calling City Hall or your funeral director.

The City of Bangor also takes orders for new headstone foundations. Please make your foundation order by third Friday October of each year. You may do so by calling your funeral director or the City of Bangor.

Thank you for your cooperation.
